Oil and Gas Business? Bring it to New Mexico's Experts

Trust your clients to New Mexico's market leader for workers' compensation insurance. New Mexico Mutual knows oil and gas. We've been covering the industry for decades. We offer various safety trainings and services – and we'll help your clients get their safety programs going. If an accident happens, our claims adjusters are experienced at managing various types of claims unique to the Oil and Gas Industry.

Get A Quote from Your Underwriter

New Mexico Mutual is experienced at underwriting oil & gas operations and related businesses. Our underwriters will work with you to find the best rate for your client – here's how!

- Knowledgeable and Experienced Underwriters
- Broad Coverage Options
- Competitive Underwriting Companies
- Out of State Coverage Program

Helping Your Clients Maintain Safe Workplaces

New Mexico Mutual offers on-site risk assessments, live safety classes, and online videos to help your clients prevent common industry accidents – all free to our policyholders.

Ask our Risk and Safety Consultants about our safety education resources:

- Slips, Trips and Falls Prevention
- Fall Protection
- Crushing Injury Safety
- Safe Lifting
- Hazardous Gas Awareness
- Defensive Driving Course

To promote safety on the road, we offer discounts on leading driver monitoring systems – including SambaSafety® and StriveSafe by Cartasite®.
